It was just about lunch hour when Taylor began his perilous climb of the sixty-foot pole to the gilded ball on top. On reaching the ball, he removed it, and came down again to gild it. He later replaced it and painted the flagpole as he descended.

If Taylor's word for it is to be accepted, climbing the flagpoles of skyscrapers is a pleasant sensation. When asked if he felt dizzy, he replied: "The higher the pole the better I like it."

The stepladder arrived in Richmond Sunday, having completed several contracts of a similar nature on government buildings in Washington.

TURKISH BATTLESHIP IS SUNK BY SUBMARINE

The Kheyr-ed-Din Barbarossa Sent to Bottom by One of Allies' Undersea Boats.

MAJORITY OF CREW RESCUED

Loss Reduces Strength of Ottomans' Ships Compared to That of Enemy in Ratio of One to Ten, Says Official Statement.

CONSTANTINOPLE, August 9.—The Turkish battleship Kheyr-ed-Din Barbarossa, of 9,300 tons displacement, formerly the German warship Kurfurst Friedrich Wilhelm, has been sunk by a submarine of the allies, according to an official announcement to-day by the Turkish government.

A majority of the officers and men of the battleship was saved. The official statement telling of the loss of the battleship adds:

"The loss of the Barbarossa, which was sunk this morning, however regrettable in itself, does not affect us excessively, except that it places the strength of our ships compared to that of the enemy in the ratio of one to ten."

The Kheyr-ed-Din Barbarossa was built at Stettin in 1891, and was purchased, together with the battleship Torgut Reis, from Germany by Turkey in 1910. The vessel was 354 feet long, 64 feet beam and had a depth of 24 feet. Her complement consisted of about 600 officers and men.

The battleship carried 4 11-inch guns in turrets fore and aft, 2 11-inch guns in a turret amidships, 8 4-inch guns, 8 3.4-inch guns and 12 one-pounders. The vessel also was equipped with two submerged eighteen-inch torpedo tubes.

HELD FOR GRAND JURY
Negro Charged With Attacking Mrs. Bedeier Neemy.

George Braxton, the negro alleged to have broken into the residence of Mrs. Bedeier Neemy, 1811 East Main Street, and to have attempted a serious crime against the woman, was sent on to the grand jury from the Police Court yesterday.

The negro is said to have forced one of the rear windows and to have made his way to the sleeping apartment of Mrs. Neemy. There he approached her and caught her by the throat when she attempted to make an outcry. However, the noise was sufficient to arouse other persons in the house and the negro sought safety in flight. He was cornered and held until the arrival of Police Sergeant Clarkson and several officers.

Elaborate preparations for their entertainment have been made in Raleigh, and a continual round of pleasure has been promised.

A "Riding Habit" Princess Frock

Made of black Callot satin, a new princess model introduces the riding habit drapery.

A novel note in the midsummer princess frock is the riding habit drapery introduced on one side after the manner of the safety equestrienne skirt, whose name it takes.

The frock in the sketch illustrates such an idea. It is made of Callot satin, black, with a shiny surface, and indicates a beautiful low-draped line at one side, while the opposite side is slightly elevated. The front is fastened with satin buttons and finished with a flat bow just below the normal waistline.

About the neck is a wide frill of cream-colored net. The sleeves are long and add to the picturesque quality of the model.
